 - (1) It is one-hundred-percent recyclable overall and contains a minimum of 40% post-consumer recycled material and can be composted.
 - (2) It displays the words "recyclable" and/or "reusable" in a visible manner on the outside of the bag.
- B. A reusable bag means a bag with handles made of cloth or other washable fabric or is otherwise durable that is specifically designed and manufactured for multiple use and meets the following additional requirements:
 - (1) It is machine washable or is made from a material that can be cleaned or disinfected; or

CUSTOMER — Any person purchasing goods or services from a retail establishment.

OPERATOR — Any person in control of, or having the responsibility for, the operation of a retail establishment, which may include, but is not limited to, the owner of the retail establishment.

POST-CONSUMER RECYCLED MATERIAL — A bag constructed of a material that would otherwise be destined for solid waste disposal, having completed its intended end use and product life cycle. "Post-consumer recycled material" does not include materials and by-products generated from, and commonly reused within, an original manufacturing and fabrication process.

PRODUCE BAG or PRODUCT BAG — A very thin bag without handles used exclusively to carry produce, meats, or other food items to the point of sale inside a retail establishment or, for reasons of public health and safety, to prevent such food items from coming into direct contact with other purchased items.

RECYCLABLE — Material that can be sorted, cleansed and reconstituted using available recycling collection programs for the purpose of reusing the altered, incinerated, converted or otherwise thermally destroyed solid waste generated therefrom. The material must be recycled in a manner that is environmentally effective, economically feasible and safe for employees as deemed feasible by the Township of Parsippany-Troy Hills.

RETAIL ESTABLISHMENT — Any store or commercial establishment that sells perishable or nonperishable goods, including but not limited to, clothing, food and personal items, directly to the customer and is located within or doing business within the geographical limits of the Township of Parsippany-Troy Hills. Retail establishments include: business establishments that generate sales or use-tax; drug stores; pharmacies; supermarkets; grocery stores; convenience food stores; food marts; or other commercial establishments (i.e., restaurants and take-out food establishments or any other business that prepares and sells prepared food to be eaten on or off its premises). This definition also includes commercial establishments that sell clothing, hardware, or any other nonperishable goods. It does not include nonprofit charitable reusers as defined in Section 501(c)(3) of the Internal Revenue Code of 1986, or a distinct operating unit or a division of the charitable organization that reuses and recycles donated goods or materials and receives more than 50% of its revenue from the handling and sale of those donated goods and materials.

SINGLE-USE PLASTIC CARRY-OUT BAG — Any bag made predominantly of plastic derived from either petroleum or a biologically based source, such as corn or other plant sources, that is provided by an operator of a retail establishment to a customer at the point of sale. The term includes compostable and biodegradable bags but does not include reusable bags, produce bags, or product bags. This definition specifically exempts the following from the category of "single use plastic carry-out bags":

- A. Bags provided by operators and used by consumers inside retail establishments to:
